

# CLASS NEWSLETTER

- The Infinite lives of Maisie Day by Christopher Edge.
- When we walked on the Moon by David Long

## Learning Overview

Welcome back to school and to Year 5 after the summer break.

Our P.E. days for this term will be Mondays and Wednesdays. Monday's sessions will be covered by Junior Jams, and they will cover foundation subjects of Computing, French, P.E and Music. PE kits should be bought on both days. We will begin the year with our Exploration Narrative topic and make links to the book 'When we walked on the Moon'. We will focus on the Year 5 objectives to broaden and deepen the children's knowledge of the mission to the moon. In Geography, we will be looking at the environment and how trade is used all around the world. We will also have discussions on how we can help to battle climate change and find ways for renewable energy. In Art we will be exploring how we can create typography through drawing and design and use our skills to create personal and highly visual maps. In Science we will learn about living things and their habitats. This will include looking at the life cycle of animals and reproduction within animals and plants. This term in Maths we will work on place value, addition and subtraction, statistics and geometry which includes angles and measures.

## Reminders
