

# Home Learning

## Task 1

Geography – Design a poster on how to make the environment a much better place. What can you do to help the environment? Think about what your parents might do at home.

## Task 2

Solve this logic problem:

- The last digit is the same as the tens of thousands digit.
- The hundreds digit is two less than the ones.
- The number is a multiple of 2.
- The tens and thousands digits sum to 2 more than the first digit.
- It is a five-digit number.
- The sum of all the digits is 24.

## Task 3

Science – Write an explanation of a life cycle of an animal of your choice. Make sure you include key vocabulary at each stage and draw and annotate diagram to explain the process.

## Task 4

Geography – Write a Fact File of a famous environmentalist. What have they achieved in their life? How have they helped the environment? Examples a people are: Greta Thunberg and David Attenborough.

## Task 5

English – Can you write a list of animals A-Z and add an adjective which begins with the same letter. For example Marvellous monkey. Then can you write 5 sentences to include these thinking about adding fronted adverbials and making it into a more detailed sentence.

## Task 6

ART – Typography – Can you create a map of your house and annotate the rooms. You might want to do two separate ones for upstairs and downstairs.

**Compulsory home learning is learning spellings, reading and timetables.**  
**Elective Home learning- Each task is equivalent to 1 hour of additional learning a week. If you would like to spend more time on a particular task that interests you, that would be GREAT! Dojos will be awarded for completed tasks.**
